

## ITEC 7410: Action/Evaluation Plan

Name: Alex Swan

Semester: Spring 2021

### **Goal: *Skilled Teachers***

In one year, I would like to see a functioning Technology Committee in place at McClure.

Evaluation Method: The technology committee goals should be measurable and aligned with our academic objectives. If we see significant change, then that equals to success.	Success Indicator: If we see significant change in areas such as student engagement and standardized testing data, then that equals student success and therefore success for the committee.
---	--

Strategies	Timeline	Budget/Funding Source	Person(s) Responsible
Facilitates meetings and intervenes when needed	Monthly	Salary	Principal
Demonstrates technology when needed and serves as a supporting resource	As needed	Salary	ITTS
Participates as often as they can and those who choose to will serve on a leadership team	Monthly	Salary	Teachers
Serves as a voice for the community	As often as possible	N/A	Stakeholders

### **Goal: *Instructional Change***

I would like to see more educational technology resources approved by the district to be utilized by teachers at McClure in a calculated way.

Evaluation Method: Our standard evaluations could still be utilized to evaluate staff in the area of technology: <ul style="list-style-type: none"> <li>• TKES Standard 3: Instructional Strategies</li> <li>• TKES Standard 5/6: Assessment Strategies/Uses</li> <li>• TKES Standard 8: Academically Challenging Environment</li> </ul>	Success Indicator: More meaningful and directed pedagogy and instructional practices will benefit the students in several ways. More engaged students will score higher on summative assessments and standardized tests. Also, if teachers are more heavily evaluated on their use of technology and how it improves student success, they will work harder and smarter to properly implement it.

projects			
Oversight/Digital Leadership	As needed	Salary	Administration
Implementation	Continuous	Salary	Systems Engineer
Expertise/Implementation	Continuous	Salary	ITTS
<b>Goal: <i>Student Focused</i></b>			
Every student in every classroom will have access to a technology device for instruction.			
Evaluation Method: All classroom teachers will have access to a technology device for each student for instruction.		Success Indicator: The level of digital literacy and the level of student engagement will increase. This will be evident in teacher observations and various academic data that can be accessed through CTLS.	
Strategies	Timeline	Budget/Funding Source	Person(s) Responsible
Apply for technology grants	As needed/as often as possible	Awarded grants	ITTS
MMS Foundation Funding	As needed	Foundation	Administration
Stakeholder/Community Donations	As often as possible	Stakeholders	Technology Committee
MMS Technology Budget	As often as possible	School Budget	Administration
<b>Goal: <i>Diversity Considerations</i></b>			
Teachers and stakeholders will continue to develop and implement clubs and activities that are directed to and targeted for specific groups of students, specifically gender groups.			
Evaluation Method: Technology Committee and other stakeholders will evaluate the success of the clubs and activities and invest more time and resources into the ones that are most effective in closing gaps in digital equity.		Success Indicator: There will be a measurable increase in the number of low SES and underrepresented genders participating in technology clubs and school activities, which in turn will illustrate an increase in digital equity among all students.	
Strategies	Timeline	Budget/Funding Source	Person(s) Responsible
Modeling by teachers	Continuous	Fundraising/Stakeholders	Teachers
Scholarships	As needed/as often as possible	Stakeholders (Foundation/Business Partners)	Technology Committee
Recruiting teachers to sponsor clubs	Weekly/Monthly	Fundraising/Dues	Administration/Teachers
Speakers and	As needed	Volunteering	Technology Committee

influencers/Business partners to advocate for and illustrate digital equity in their companies			
<p><b>Goal: <i>School Related</i></b></p> <p>Our school vision needs to address educational technology within its scope.</p>			
<p>Evaluation Method: Our technology committee and members of the community will evaluate how well our vision is being acted upon and what adjustments could be made to make it better.</p>		<p>Success Indicator: A successful implementation of a technology plan/vision will increase student engagement and help better prepare them for the future. This will be evident through summative assessments and standardized testing, as well as student achievements past middle school in the areas of technology.</p>	
Strategies	Timeline	Budget/Funding Source	Person(s) Responsible
Committee Meetings	Monthly	Salary	Administration/Teachers
Community Partnerships	As needed/as often as possible	Business Partners/Stakeholders	Technology Committee
Periodic Review of Vision			Administration/ITTS/Technology Committee/Stakeholders
